

HOMEMADE PUFFY PAINT RECIPE

(Instructions can be found on <https://meaningfulmama.com/best-homemade-puffy-paint.html>)

HOW TO MAKE PUFFY PAINT

Puffy Paint Ingredients:

- $\frac{3}{4}$ cup shaving cream
- $\frac{1}{4}$ cup white glue (if the consistency isn't what you'd like add up to $\frac{1}{8}$ more glue... see notes below)
- $\frac{1}{4}$ cup flour
- Food Colouring

INSTRUCTIONS

1. Add in order – shaving cream, glue and then flour into a bowl.

2. Mix all ingredients together until completely combined and you get the consistency desired.
3. Putting your puffy paints in a squeeze bottle works very well to help keep the puffy look. You can also use paint brushes for a thicker consistency and texture.

*This recipe dries in the air.
